INFOMATICS
IT CONSULTING AND SOFTWARE SOLUTIONS

www.infomatinc.com

WHO WE ARE

We are a customer focused IT consulting and software solutions provider headquartered in Michigan with a branch office in Chennai, India. Founded in 1999 and managed by professionals with years of IT background and industry experience, Infomatics has specialized in information technology staffing and consulting services. We have experienced and goal oriented technology professionals who can understand and analyze your business problems, provide clear technical strategy that works for you and successfully deliver world class IT solutions to enable your business to perform better. Our offshore development capabilities can provide our clients with significant cost savings while delivering top quality solutions on time. Our ability to provide quality services at highly competitive prices has benefited many large corporations such as Daimler Chrysler, DHL, Lear, Global Crossing, Verizon, ThyssenKrupp, among others.

We are a minority business enterprise as certified by Michigan Minority Business Development Council (**MMBDC**)

Infomatics India based in Chennai, provides highly trained Consulting talent and Technology services suited for the domestic market in India. Our trained and experienced recruiters have a good understanding of the labor market, and have the right connections to match client requirements. With its significant experience in delivering high quality and cost-effective services to Fortune 500 companies in Corporate America, Infomatics India is well positioned to meet the enormous and diversified needs of Indian IT marketplace.

Mission Statement

We are committed to providing our customers with exemplary solutions in IT consulting and software services that maximize their IT investment and exceed their expectations.

OUR SERVICE METHODOLOGY

Infomatics forms flexible, strategic sourcing partnerships with its clients based on their business needs. Our consulting service model focuses on maximizing the value of our clients' IT expenditure. Our services range from providing skilled IT consultants for onsite project support to developing complex business solutions designed and scaled to meet your technology challenges. With industry-specific expertise, outsourcing capabilities, flexible delivery model and strategic partnerships, we work with customers to create maximum value of their IT spending.

Whether you need one IT professional, a full project team or a complete solution developed in house or offshore, Infomatics is there to respond quickly with highly skilled technology professionals to deliver comprehensive solutions that exceed your expectations.

SERVICES AND SOLUTIONS WITH A PROFESSIONAL TOUCH

Infomatics has broad range of highly skilled professional who can offer technology services to address client needs for both short and long-term assignments.

Our consultants are well-rounded and goal oriented individuals with several years of industry experience. In addition to great technical skills they also have excellent interpersonal and communications skills, which are vital for the success of your projects.

Our value-adds include:

- A proven process for choosing the right candidates for your business requirement
- Highly transparent and ethical business practices

Infomatics' offshore development offers you:

- A well-defined and proven offshore methodology encompassing the entire life-cycle of a project - from requirement analysis, complete application development, quality assurance and onsite/offshore maintenance.
- A most modern Offshore Development Center in Chennai, India.
- Availability of a team of experienced staff and state-of-the-art facilities, catering to the software development needs of customers across the world
- A 90-day post-production warranty that ensures the application works seamlessly.

Outsourcing Case Study

A Fortune 500 listed, major automotive company from the United States achieved a significant cost saving of over 45%, thanks to the cost-effective and superior outsourcing solutions provided by Infomatics.

THE RIGHT SOLUTIONS. AT THE RIGHT TIME

It is a continual challenge for CIO's, MIS Directors, and Technical Managers to acquire strategic skills in a timely and cost-effective manner and handle new projects they're being constantly swamped with using only their own internal staff. Our experienced IT staff, with the right blend of in-depth application knowledge and technology expertise, will ensure expert, and cost-effective service delivery. They are subject matter experts who can make an immediate difference and help you to leverage your IT investment to meet key performance metrics.

Our Offshore service is based on a USA/India dual-shore solution. This takes advantage of combining Infomatics' expertise and capabilities with the cost savings of offshore development to deliver top quality solutions on time every time.

THE INFOMATICS PROMISE

Our promise to our valued customers is to provide the highest quality services be it Staffing Solutions or IT Development activities, at the most competitive rates. With a methodical selection process, we ensure that only the finest brains work on your projects. What's more, we even offer a free 2-week trial period to try out our candidates before extending their engagement.

THE INFOMATICS EDGE

Be it for cost-reduction or advanced solutions, Infomatics provides solutions that are comparable to the best in the industry. Among the many benefits we offer are:

- Deep industry and business process expertise and a proven track record
- Exemplary capabilities to mobilize right people, skills, and technologies to help customers improve efficiency and performance
- Keen eye on providing immediate and cost-effective Staffing solutions on a need basis to cover project peaks
- Adaptability to varying market requirements and economic changes
- Demonstrable productivity and service improvements leading to a quantifiable reduction in operational cost
- Pioneering Offshore Development capabilities, focusing on quality, speed of execution and cost benefits
- Flexibility to work on offshore, onsite or dual-shore models
- Innovative 'try-before-you-buy' model to help clients to evaluate a consultant for 2 weeks before engaging him/her for longer duration. Allows for a no-cost and risk-free option for customers
